

Special drop-in help sessions this Thursday

Don't lose out on College Credit Plus funds!

Is your child taking College Credit Plus classes next year? Confused by the funding application process? NDCL can help!

The State of Ohio requires non-public school families to apply for funding to cover the cost of College Credit Plus courses. If this process is not completed correctly, funding will not be awarded, forcing families to either self-pay for the classes or have their children drop the classes for next year.

NDCL can help you avoid these unfortunate scenarios by insuring that your funding application is completed correctly and on time.

Whether you would like help completing the entire application process or just need reassurance that you have completed your application correctly, Assistant Principal **Mrs. Denice Teeple** will host a drop-in help session Thursday, March 14, from 2:45-7:30 PM in Room 224.

There's no need to make reservations for this session. Just show up! If you cannot attend the help session, all the information you need to complete the CCP application process can be found on [our CCP webpage](#).
